ESPAÑA / SPAIN

TO WHOM IT MAY CONCERN

ZARAGOZA,

FOR CUSTOMS SERVICES and NATIONAL PLANT or QUARANTINE SERVICE

CERTIFICATE

(This document is not required by an import regulation, it is voluntarily issued)

We confirm that the boxes, used for packing our crankshafts , are made exclusively of wooden fibre agglomerated mass and plywood made of glues at high temperatures and phenolic protection.

This moulding process can not be survived by any living plant pests.

Therefore boxes are entirely composed of “ processed wood material ” according to the 2nd paragraph of the phytosanitary regulation requirement Nr. 2 of the FAO – IPPC – ISPM15.

VICENTE IRACHE ASIN
GENERAL MANAGER
